NATO – SKI KOD PODMIOTU GOSPODARKI NARODOWEJ / NATO NCAGE CODE 1839H

Parcele Łomskie dn. 2016-06-13

Kayak frame

integrated front frame, integrated rear frame, front ribs kit, rear ribs kit
complete breakwaters right/left , deckbars, bottom rods

- Longitudinal elements and floor stringers of kayak's frame / seasoned ash wood coated with 4-layers of special varnish which is salt water and ageing resistant/proof. Coating color: black or grey
- Crossribs waterproof plywood (12 mm thick) coated with 4-layer black and grey water resistant varnish

Breakwaters waterprotected ash wood coated with 4-layer black and grey waterproof varnish

- Fittings - aluminium ENAW 6082 for marine applications and non-magnetic stainless steel
- Hinges binding kayak's parts are made of stainless steel

All aluminium fittings are riveted or screwed to wooden elements with stainless screws what makes for quick disassembly unlike rivets fittings

- Steering/rudder system pedals are adjustable and mounted on slider riveted on floor. Steering control lines are made of parachutes line in black PCV lag. Each wooden part is coated with 4-layer special waterproof styrene varnish. Steering control lines can be regulated while using kayak. Rudder and rudder bar are made of blackish aluminium ENAW 6082.
